NOVEMBER 1, 2019
WV A.W.A.R.E.
JOIN US FOR A COLLABORATIVE WORKSHOP

Workshop Topic:
Creating a model of enhanced healthcare system response to intimate partner violence

WV AWARE (Asking Women About Relationship Experiences) focuses on improving intimate partner violence (IPV) screening, assessment, and response in healthcare settings.

In this collaborative workshop, participants will work together to develop a model of enhanced healthcare system response to IPV. Participants will provide their input on the resources and activities needed to create meaningful change. The workshop will include collaborative work with IPV survivors to generate new strategies for addressing IPV.
